#### Characteristics of Advanced NPS Programs that Fuel Growth

80% of your time should be spent responding to and taking action on feedback.

**8**U

20% of your time should be spent on designing and implementing a survey.

# Firms with advanced NPS programs have processes in place to take action on feedback:

- **Detractors** trigger recovery and follow up.
- Promoters trigger outreach and inquiry about further business and referral opportunities.
- **Passives** trigger outreach about what could be done better.

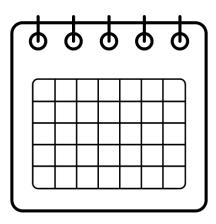

In addition to action taken at the respondent-level, Best of Accounting firms:

- Use **NPS drivers** to diagnose behaviors and process issues that may be contributing to a low score.
- Analyze and report on data so that it can be integrated into firm-wide processes.
- Align the frequency of surveys to the client journey.

Measure the client experience. Build online reputation. Differentiate on service quality.

# How often should your firm survey clients and employees?

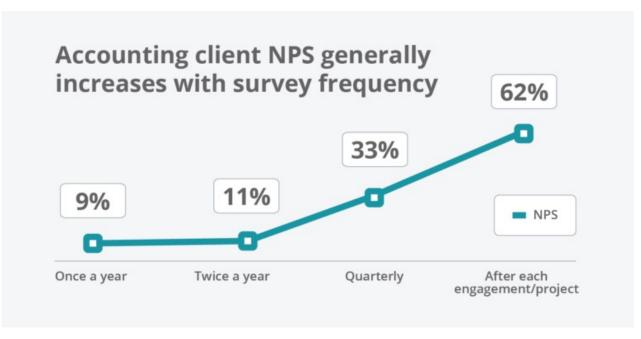

- At least annually, more than annually is better.
- The ideal survey cadence invites feedback at **critical moments in the relationship**.

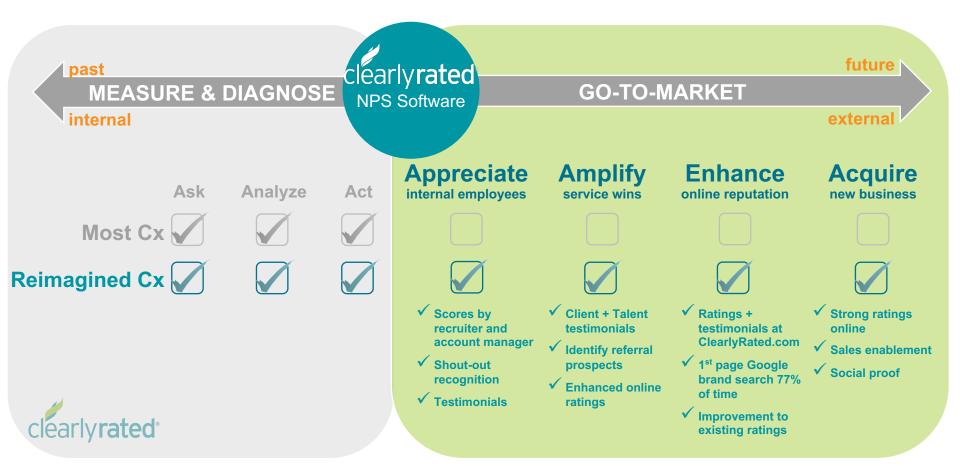

Measure the client and talent experience. Build online reputation. Differentiate on service quality.

# A more regular survey cadence can drive higher satisfaction

## The future of CX is responsive, always on, and transparent

### DEI and its role in CX (and EX)

#### "Employee experience is the next battlefield that client experience is going to be won on."

-Saari Gardner, Executive Vice President of Client Experience at DHG

- **Glassdoor:** 67% of people consider diversity an important factor when deciding where to work
- **Deloitte University:** Millennials who feel that they're working for a company that fosters an inclusive culture are 38% more likely to be actively engaged than those who do not
- **Gartner:** Gender-diverse and inclusive teams outperformed gender-homogeneous, less inclusive teams by 50%, on average
- **McKinsey & Company:** Companies in the top quartile for gender, racial and ethnic diversity are 35% more likely to have financial returns above their national industry medians.
