2022 Staffing Employee Turnover Report

- **NEW** data on internal employee retention and turnover rates
- The ClearlyRated analytics team compared employee survey data from nearly 3,000 staffing firm employees
- Responses were collected from internal staff across 28 firms between March 2020 and December 2021
- Turnover events are correlated with employee satisfaction and perception data

Internal Employee Turnover Benchmarks

The median turnover rate of internal staffing firm employees is 26.5%

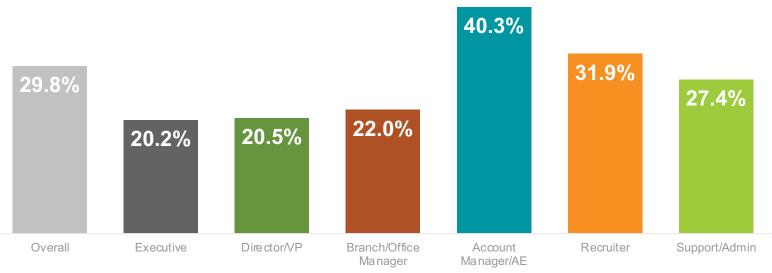

Company-Level Turnover at Staffing Firms

Internal employee turnover benchmarks

40% of Account Managers and nearly 1 in 3 Recruiters left their firm between 2020 and 2021

Total Turnover by Job Title

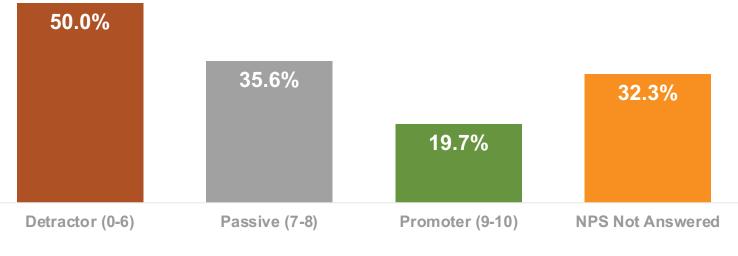

eNPS® is a leading indicator of churn

50% of Detractors left their firm – roughly 2.5x the churn from Promoters, 1.4x the churn from Passives

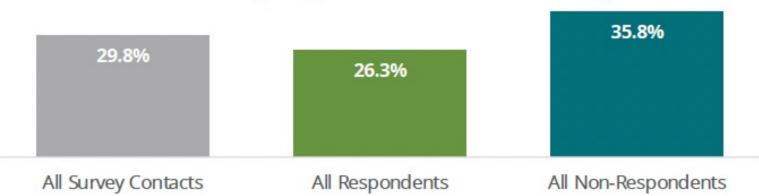

Turnover by eNPS Response in Initial Survey

Response rate highly correlated with turnover

Individuals who do not respond to an employee survey are 36% more likely to turnover

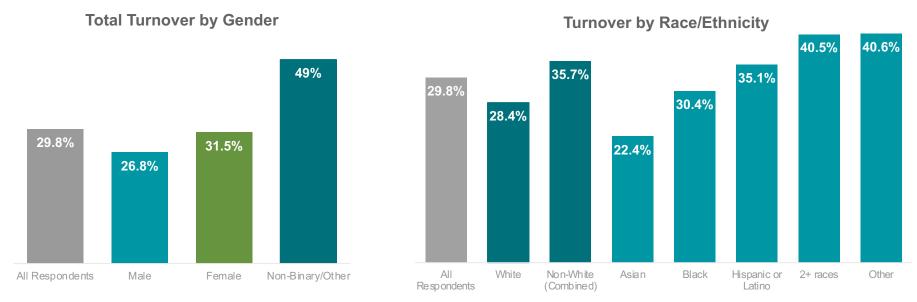

Turnover by Response Status to Initial Survey

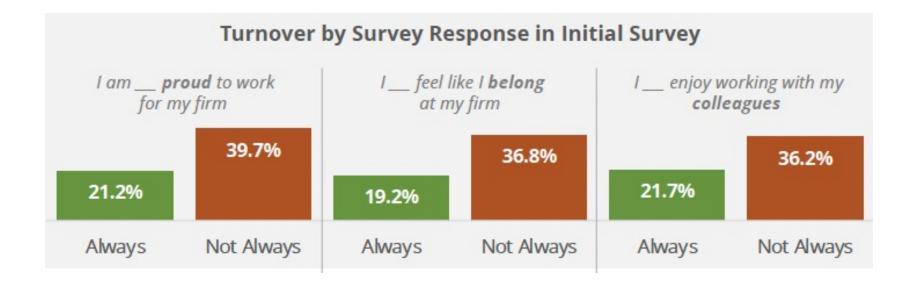

Race and gender impact likelihood of turnover

Firms are more likely to lose non-white employees; women and non-binary employees are more likely to churn than men

Employee pride in their firm and sense of belonging have a significant impact on turnover

5 Keys to Improving Turnover Rate

#1: Flexibility

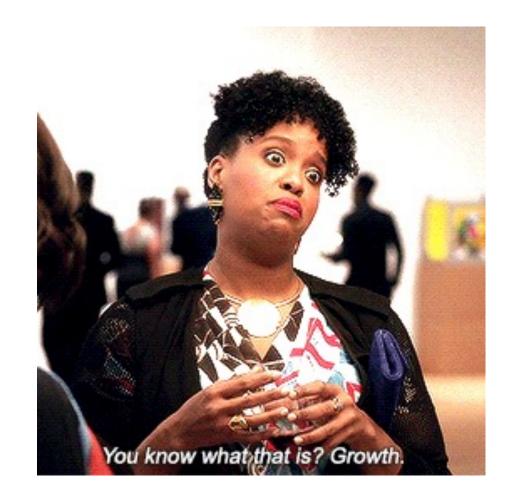

#2: Purpose

#3: Professional Development

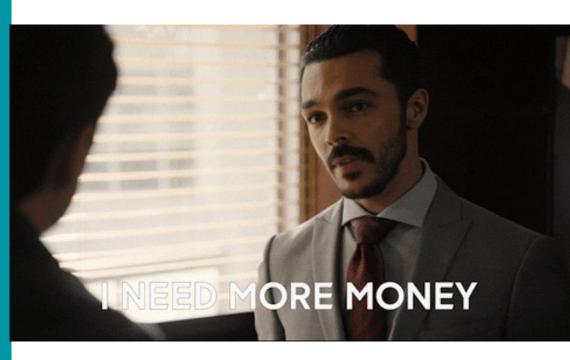

#4: Career Pathing

#5: Oh, and MONEY

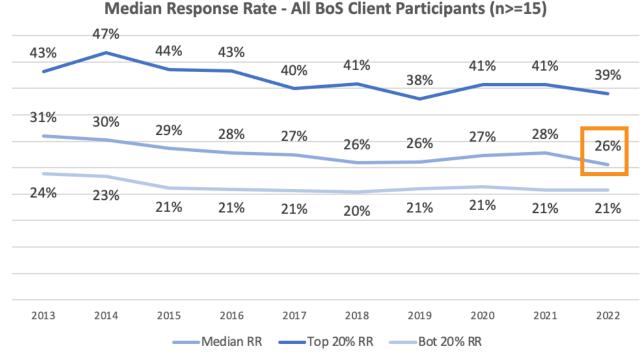

Survey Response Rate Study

The Data

- **NEW** data analysis of client survey response rates from 102 Best of Staffing brands
- Surveys were fielded between January and August 2021
- The ClearlyRated analytics team set out to answer frequent client questions about response rate:
 - What is an acceptable survey response rate?
 - ✓ Is it possible to predict the overall response rate based on Day 1 response rate?
 - How do I increase NPS survey response rate?

Median NPS survey response rate for Best of Staffing clients is 26%

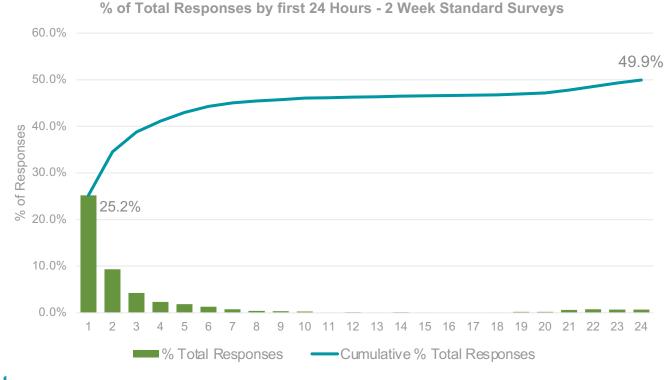

Day 1 response rate is a predictor of overall response rate

Cumulative RR by Day (final n>=15)

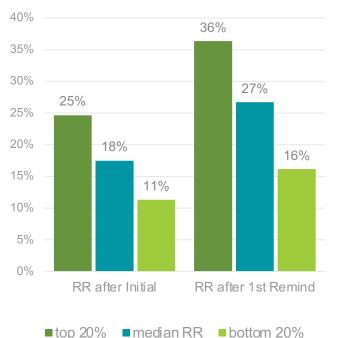

For standard surveys, Hour 1 gathers 25% of all responses

Survey reminders are critical to increasing response rate

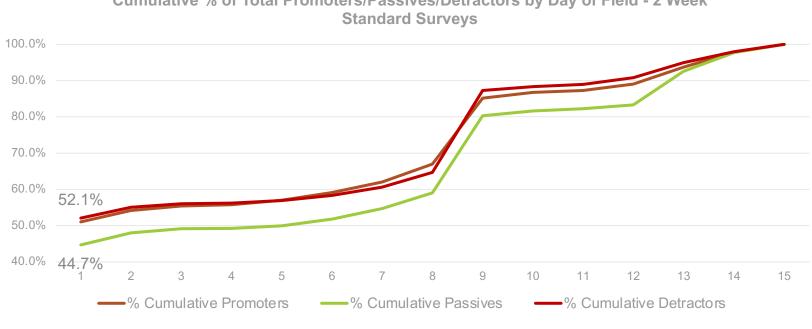

clearly rated[®]

Impact of 1 Reminder

Impact of 2 Reminders

Passives are most likely to procrastinate their response

clearly rated*

Cumulative % of Total Promoters/Passives/Detractors by Day of Field - 2 Week

5 Keys to Improving Survey Response Rate

#1: Master the science of survey design

#2: Keep the questionnaire succinct

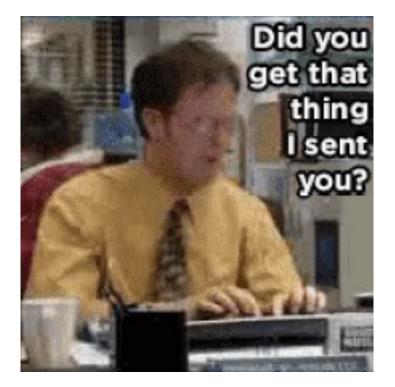

#3 – Communicate before, during and after

#4: Ensure clients receive your survey invitations

#5: Make it personal

CX Maturity Model

Differentiate

Adopt practices that reveal unmet customer needs, reframe customer problems, and re-think the entire customer experience ecosystem.

Optimize

Adopt practices that give the organization a more sophisticated customer experience toolkit.

Elevate

Adopt practices that make good customer experience behavior the norm.

Repair

Adopt practices that enable you to find broken customer experiences, fix them, and measure the results.

CX Measurement Maturity Model

Elevating

- Weekly/event triggered feedback.
- CX-centered organization. Company core value.
- Social proof centered marketing, sales, renewals.

Expecting

- Monthly/weekly feedback at key stages of journey.
- Service 'stars' are celebrated internally.
- Scores are leveraged internally and externally.

Sharing

- · Semi-annual or more often.
- Customer-facing employees see feedback.
- Feedback driving process and investment.

Measuring

clearly rated[®]

- Annual or semi-annual survey cadence.
- Reporting at leadership level only.
- Focus on macro areas of improvement.

ROAD MAP

Source: ClearlyRated

Characteristics of an Advanced NPS Program

80% of your time should be spent responding to and taking action on feedback.

8U

20% of your time should be spent on designing and implementing a survey.

Advanced NPS programs have processes in place to act on feedback:

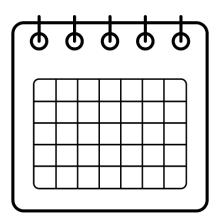

- **Detractors** trigger recovery and follow up.
- **Promoters** trigger outreach and inquiry about further business and referral opportunities.
- **Passives** trigger outreach about what could be done better.

In addition to action taken at the respondent-level, Best of Staffing firms:

- Use **NPS drivers** to diagnose behaviors and process issues that may be contributing to a low score.
- Analyze and report on data so that it can be integrated into firm-wide processes.
- Align the frequency of surveys to the client and talent journey.

How often should your firm survey clients, placed talent, and employees?

- At least annually, more than annually is better.
- The ideal survey cadence invites feedback at **critical moments in the relationship**.
- For example, a Talent Engagement survey program surveys placed talent at:
 - **Onboarding**—one week after the start date of an assignment
 - Mid-assignment—usually 30-60 days into an assignment
 - End-of-assignment—one week after the completion of assignment

A more regular survey cadence can drive higher satisfaction

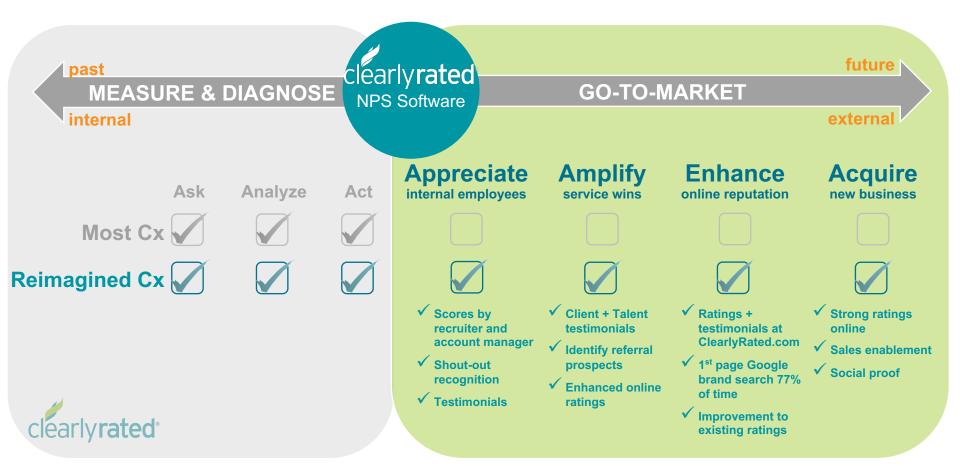

NPS Impact of Talent Engagement Program

Average first-year results of ClearlyRated clients who switch from one annual survey to an ongoing Talent Engagement program

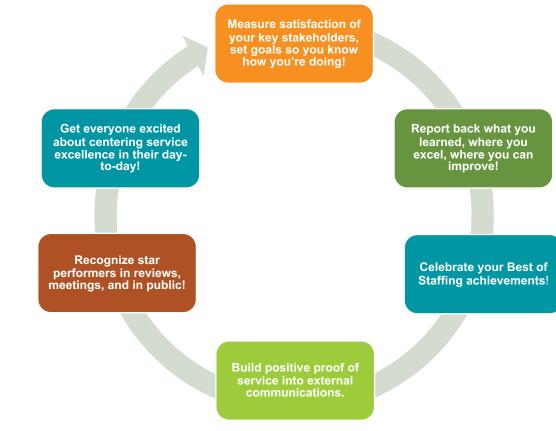

The future of CX is responsive, always on, and transparent

Create a "virtuous cycle of goodness"
