FAQs

ClearlyRated Star Ratings Widget

Can I add the star ratings widget to multiple locations on my website?

There are no limitations to the number of places the widget can be embedded.

Is the star rating data updated in real time?

There is no lag time with the data. The widget uses identical data pulled from your ClearlyRated.com profile page.

Can the widget map to my different locations or brands?

You may select ratings to be displayed per brand, per audience, and per location.

Do I have access to the star ratings widget?

If you're subscribed to ClearlyRated at the Premium level or higher - the star ratings widget is available to you at no extra cost. Learn how to access below.

How do I add the star ratings widget to my site?

Getting the widget included on your website is as simple as pasting a small bit of code from your ClearlyRated dashboard. Learn how to access below.

How-To Get The Star Ratings Widget?

Do you have an active ClearlyRated subscription (at the Premium level or higher)?

Head to your ClearlyRated survey [dashboard](#) (go to Online Profile > Widgets) for step-by-step instructions for how to activate the ClearlyRated widget. You will configure the widget in your dashboard and then copy the generated code snippet. Share this code with your development team (or whoever manages your code base) to have it added to your website.

Not working with ClearlyRated yet?

We'd love to chat more and walk you through a demo to show you how our survey program can help measure, improve, and leverage the client and candidate experience at your firm. Contact us at clearlyrated.com/solutions.
