ClearlyRated + Bullhorn Software Integration

DISTRIBUTE SURVEY RESPONSES TO THE PEOPLE THAT NEED THEM MOST

Bullhorn **+** **clearlyrated**®

ClearlyRated Custom Tab
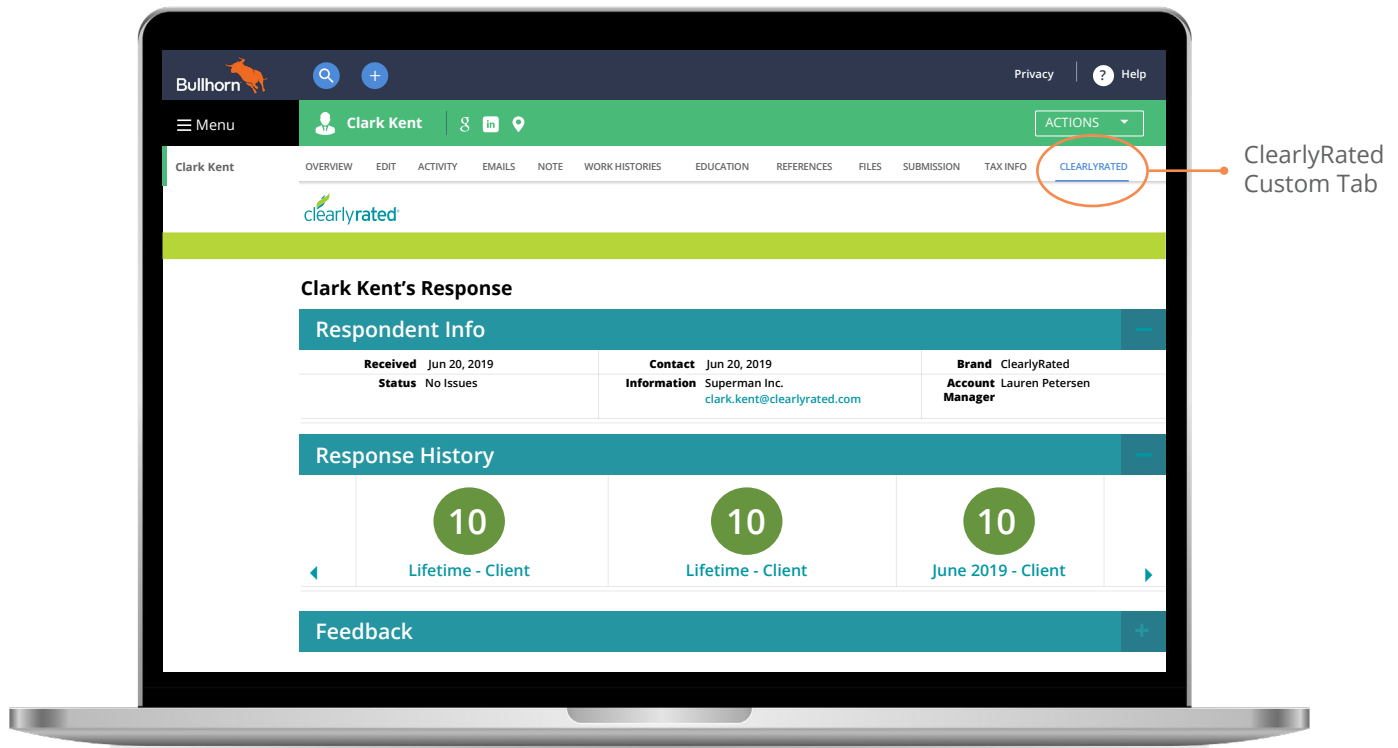

Key Benefits:

- Easy to navigate custom tab in Bullhorn ATS
- Account Manager and Recruiter access to real-time information that improves client and candidate relationships
- Historical satisfaction scores and feedback seamlessly visible within a contact's Bullhorn record

How does my team access the survey data?

The survey data is a custom tab in the contact or candidate record navigation.

Where is the survey data stored?

The survey data is hosted within the ClearlyRated dashboard. The data is not accessible via search or any other reporting tools within Bullhorn.

Does the integration apply to both client and candidate records?

Yes, the ClearlyRated tab appears in both client and candidate contact records.

Who will all have access to this information from my team?

Permissions are set at the Bullhorn level, not at the ClearlyRated level. If you're a Novo user, you can set a user tab permission by user types within Bullhorn.

Do I have access to the integration?

If you're currently utilizing Bullhorn and are subscribed to ClearlyRated at the premium package level or higher - the integration is available to you at no extra cost! Learn how to access below.

How-To Get Integrated

Are you a Bullhorn user and have an active ClearlyRated subscription (at the Premium level or higher)?

Head to your ClearlyRated survey **dashboard** (go to Manage > Integrations) for a step-by-step guide to walk you through how-to set up the interface (note: requires admin access).

Not working with ClearlyRated yet?

We'd love to chat more and walk you through a demo to show you how our survey program can help measure and improve the client and candidate experience at your firm. Contact us at **clearlyrated.com/solutions**.
